

August-September 2026 SEO & Social Media Performance Report | Search Sarkari

Naukri

Reporting basis: August 2026 is the starting/baseline month for this engagement; September 2026 is the first progress month. The main comparison is August vs September only. Corrected search/AI exports downloaded on 3 October are used where they supersede earlier files.

Starting point - August 2026

Work began in August with a technical website review, sitemap clean-up, page accessibility fixes, image optimisation and search monitoring. August provides the baseline for evaluating progress; no pre-August period is used to judge the work.

SEO work started in August • Full website check completed on 25 August. • Expired jobs removed from the sitemap and old job links cleaned up. • Blog images reduced in size; homepage mobile speed score moved from 42 to 74. • Google and Bing error lists reviewed for missing, non-indexed, thin and blocked pages. • At the August audit, 1,057 sitemap links were valid.	Social work started in August • Facebook and Instagram publishing activity established and tracked. • Job/recruitment, career guidance, quiz and awareness content used across posts and reels. • Best early content signal: 9 August video/reel delivered 405 Facebook views and 137 Instagram views. • August serves as the baseline for social content performance.

Key KPI comparison

Metric	August	September	Change
Google organic clicks	2	11	+450.0%
Google impressions	52	48	-7.7%
Google CTR	3.8%	22.9%	+19.1 pp
Google average position*	42.9	19.2	23.7 positions
Bing organic clicks	169	280	+65.7%
Bing impressions	4,339	5,518	+27.2%
Bing CTR	3.9%	5.1%	+1.2 pp
Returning users	58	217	+274.1%
Facebook interactions	35	37	+5.7%
Instagram posts	15	17	+13.3%

*Lower average-position numbers indicate stronger rankings.

Top 5 highlights

- Google clicks increased from 2 to 11 while average position improved from 42.9 to 19.2.
- Bing clicks increased from 169 to 280 and impressions from 4,339 to 5,518.
- Returning users increased from 58 in August to 217 in September.
- AI citations stayed at a high level: 876 in August and 867 in September; the daily cited-page sum increased from 109 to 203.
- September expanded the SEO/content base with new public pages and new search-targeted article topics.

SEO activity summary

August - foundation • Technical website audit and search-access checks. • Sitemap hygiene: expired jobs removed and old links cleaned. • Image optimisation and homepage mobile speed improvement from 42 to 74. • Google/Bing error review covering missing, thin, blocked and non-indexed pages. • Baseline search monitoring established.	September - expansion • New public pages checked live: State Government Jobs, Government Jobs 2026 guide, Exam Syllabus and Patterns. • Homepage job counts corrected; duplicate titles reduced; withdrawn jobs removed from sitemap. • Job, exam, district and quiz pages updated for search. • New search-targeted articles written around SSC CHSL, RRB NTPC, 12th pass jobs, Pune, Nagpur, Nashik, age limit and other supplied topics. • Internal content coverage expanded around job and location searches.

Instagram	Likes	5	2	-60.0%

*Instagram reach is the sum across supplied post rows, not a unique-account total. Instagram follower and profile-visit metrics were not provided, so they are omitted from the comparison.

Platform ranking - by two-month views

Rank	Platform	Views	Basis
1	Facebook	1,778	Common view metric available across both platforms
2	Instagram	541	Common view metric available across both platforms

Best-performing content

Platform / date	Format	Views	Reach	Engagement signal
Facebook - 9 Aug	Video	405	376	Highest Facebook views
Facebook - 28 Aug	Video	329	312	3 reactions, 1 comment, 1 share
Facebook - 14 Sep	Photo	180	109	5 reactions, 3 shares
Instagram - 9 Aug	Reel	137	118	2 likes; highest Instagram views

What worked - Facebook interactions moved from 35 to 37 in September. - Facebook page visits moved from 9 to 10. - Instagram publishing cadence increased from 15 to 17 posts. - Video/reel formats produced the strongest view totals in the supplied content-level data. - Job/recruitment and useful career content generated the strongest recorded social examples.	Next social focus - Repeat the proven job/recruitment video and reel formats. - Use one clear website CTA/link on every job-focused post. - Use tracked links so social-to-site traffic can be measured accurately. - Keep interaction-generating photo posts in the mix alongside video. - Capture monthly follower and profile-visit exports for stronger September-October reporting.
