October 2026 SEO & Website Performance Report | Search Sarkari Naukri

Reporting month: 1–31 October 2026 | Main comparison: September 2026 vs October 2026

This report shows how people found Search Sarkari Naukri through Google, Bing, AI search and other website traffic sources. Numbers are drawn from the supplied Google Search Console, Bing Webmaster Tools and Google Analytics 4 exports.

Performance at a glance

Metric	September	October	Change
Google search clicks	11	39	+254.5%
Google search impressions	48	3,104	+6366.7%
Bing search clicks	280	396	+41.4%
Bing search impressions	5,518	7,726	+40.0%
Bing AI citations	867	963	+11.1%
Website new users	444	445	+0.2%

Comparison basis: September search figures are from the previous client report. October Google data covers 5–31 October (27 days), Bing covers 4–31 October (28 days), and GA4 website figures cover 1–31 October (31 days). The changes above compare the supplied coverage, not identical-length calendar months.

What the numbers mean

Term	Simple explanation
Clicks	Times someone selected the website from search results.
Impressions	Times the website was shown in search results.
CTR (click-through rate)	Percentage of search impressions that became clicks.
Users / sessions	Users are people measured by Analytics; sessions are separate visits.
AI citations	Times Bing recorded the site as a source in AI-powered search results.

October website audience

Google Analytics metric	October result
Active website users	518
New website users	445
Website visits (sessions)	932
Average engagement time per active user	2 min 53 sec
Tracked website events	11,950

Google Analytics records user and visit activity on the website; Google and Bing search clicks are tracked independently and should not be added to sessions.

GROWTHIK MEDIA

Search & AI Visibility | October 2026

Google Search Console and Bing Webmaster Tools

Google Search performance

Metric	September	October 5–31	Change
Search clicks	11	39	+254.5%
Search impressions	48	3,104	+6366.7%
Click-through rate (CTR)	22.9%	1.26%	-21.64 pp
Average search position	19.2	22.6	+3.4 positions

Google impressions count appearances in search; average position is the approximate ranking position (lower is closer to the top). October values use the dated daily chart, not the export's rolling-period total.

Top Google pages by search clicks

Page	Clicks	Impressions
Homepage	14	217
/districts	6	507
/battle	2	40
/jobs/2027	2	20
/exams/mpsc-group-c	1	271
/exams/jpsc-cdpo	1	238
/state-government-jobs	1	176

Google page ranking above uses the supplied rolling 28-day page export (5 October–1 November), not the 27-day October-only daily totals.

Bing search performance

Metric	September	October 4–31	Change
Search clicks	280	396	+41.4%
Search impressions	5,518	7,726	+40.0%
Click-through rate (CTR)	5.1%	5.13%	+0.03 pp

AI search visibility

Measurement	September	October	Change
Bing AI citations	867	963	+11.1%
Bing cited-page daily total	203	266	+31.0%
Google AI feature impressions	Not supplied	235	—

Bing AI citations measure source mentions in Bing AI search. "Cited-page daily total" is the sum of daily cited-page counts, not the number of unique pages. Google AI feature impressions count displays in supported Google AI search features; they are a different measurement and are not combined with Bing citations. Google AI figures cover 5–31 October.

Pune	116
Nagpur	55
Solapur	54
Prineville	30
Forest City	20

Documented October SEO page activity

Nanded Talathi page (released 30 October): Published 15 page sections and 15 frequently asked questions, with 3,290 words and 102 links. The page was added to the district sitemap. The related district-category page route was updated across 432 URLs. These figures describe October website work; they do not represent additional search traffic.

Reporting sources and coverage

Google Analytics 4 (1–31 Oct); Google Search Console search and AI-feature daily charts (5–31 Oct); Bing Webmaster Tools search and AI daily files (4–31 Oct); earlier Growthik Media August–September report (September comparison figures); 30 October Nanded Talathi release evidence. Bing page explorer, referring-domain and Google page/queries exports are snapshots or rolling-period datasets, not independent full-month totals.
